

FIVE STAR - FSA Lockheed L-1011-385-1 TriStar

This new charter airline was created by the Interface Group, owner of GWV Travel in 1984. It acquired two TriStars from TWA (leased back to them in the summer) for charters to the Caribbean and Mexico. Originally operated by IASCO under their certificate, Five Star Airlines received their own FAA certificate and worldwide charter authority and is now planning charters to Europe.
